# Darwin Symphony Orchestra a Success in East Arnhem Land

**30 April 2015**

On Saturday 30 May 2015, the Darwin Symphony Orchestra presented a special one-off feature event in East Arnhem Land.

With more than 25 years' experience, the Darwin Symphony Orchestra has established itself as one of Australia's most diverse and culturally significant orchestras, reaching audiences in every corner of the Territory.

"The orchestra has already performed in a range of locations across the Territory including Uluru, Groote Eylandt, Pine Creek, Katherine, Yirrkala, Milingimbi and Maningrida and it's great that Nhulunbuy is now getting a chance to hear this music in their own backyard," Chief Minister Adam Giles said.

The concert brought a large crowd on Saturday 30 May with people gathering at the Garma site to enjoy the performance by some of Australia's finest and most celebrated operatic voices, including renowned tenor David Hobson and baritone Andrew Jones.

"The event supports local economic development through direct visitation and positioning the region as a great event destination. It is a real credit to the region and to the groups who supported the event, the Gumatj Corporation, Rio Tinto and the Territory Government" said CEO of Developing East Arnhem Limited, Ms. Carley Scott.
